

Quality, Health, Safety and Environmental Policy

We contribute to the marine and offshore markets with design and production of specialized in-line pumps for vital applications and focus on lifecycle performance to enhance our customers' business and benefit the environment being:

- Reliable and safe
- Efficient and environmentally sound
- Compliant with the applicable legal requirements, regulations, and other requirements.

We continue to improve our performance and reduce adverse environmental impact to satisfy our customers and other stakeholders.

We give top priority to prevent occupational injuries and illness by maintaining safe and healthy workplaces for our employees and partners in all our business operations. We give everyone the authority to stop work if conditions are unsafe or quality is compromised.

We set objectives and seek continual improvements in our QHSE performance. We are committed to eliminate defects, hazards and reduce QHSE related risks.

We promote consultation and participation of employees to ensure that our QHSE principles are enforced and continually improved.
